

Hello Organizers:

The CFC received an excellent offer a number of months ago from DGT (Digital Game Technology) to make a purchase of Electronic Chess Sets and Clocks, for tournament use. They are promoting their new line of more affordable, plastic based e-equipment.

We are being offered these products at "developmental" prices, that are being offered to many FIDE countries. This is a one-time offer. We have received permission to allow our partners to participate as well. It is important to note that you will have to agree that any products you purchase are not to be resold.

Our eligible partners are:

- 1) Provincial Associations
- 2) Chess clubs/organizations holding CFC Tournaments
- 3) Organizers holding CFC Tournaments
- 4) Organizers in the process of bidding for upcoming CFC events

We have sent this notice to eligible partners, but of course we fully anticipate that we may have left a number of potentially eligible people off of the list. To become eligible contact Bob Gillanders at the CFC Office, Fred McKim, CFC Treasurer, or Vlad Drkulec, CFC President with your credentials and we'll approve you within 24 hours. E-mails for all of the above can be found at <http://chess.ca/governors-page>

We are also partnering with CMA on this project and they will be accepting payments for orders and receiving the shipment into Canada. Orders including full payment must be completed by Friday, December 7. In Western provinces GST must be added to the order, in Ontario and Atlantic provinces HST must be added, in Quebec PST/GST must be added.

Payment is to be made by credit card, cheque or e-transfer (contact CMA for details on this option). Credit card payments are to add 3%. You must indicate if you want to pick up your purchase at the Montreal, Toronto, or Ottawa Strategy Games Store (no extra shipping cost to you if picked up within a week) or have it shipped to your address from Montreal. In the case of this latter option you will be notified of the exact shipping charge after you place the order, prior to payment. Shipping 10 clocks to either the east or west coast is \$25-35. The cost for 3 boards is about the same. To give you the best possible cost, the entire shipment is coming by ocean freight. We expect that distribution will be made in the first 2 weeks of February.

For further information contact

Fred McKim -- Equipment questions

CMA -- To place an order or Payment & shipping questions,

e-mail bevand@chess-math.org or phone: 514-845-8352 Ext 31 speak to Bertrand

Warranties on the chess sets will be handled by DGT, while CMA will have some extra clocks in case of warranty issues with them.

PRODUCT LIST (ITEMS AVAILABLE to ORDER)

Links are given to DGT for information purposes only, all orders are through CMA.

e-Set (1st smart board - tournament set-up) - \$315

Includes following 3 items

Smart DGT Board

The main difference between the DGT2010 (Red) and the DGT NA (Blue) is how they treat delay timing. The 2010 uses Bronstein Delay (FIDE approved), while the NA uses United States Delay (typically also used in Canada). Bronstein Delay adds the delay time to the time of a player immediately after each turn (normally the delay time is also automatically added onto to the total thinking time at the start of the game, ie a G/60 min, delay/10 sec would actually be 60:10 at the start of the game), while the US Delay simply pauses during the delay time at the beginning of the move during the delay period. The DGT3000 handles both type of delay.

Aluminum Case for 10 Clocks - \$50

https://www.dgtshop.nl/index.php?route=product/product&path=69&product_id=130

PLEASE do not attempt to order from DGT, all orders go through CMA.
